please tell me the reason  
you're acting this way  
don't worry i can take it  
things can't stay the same  
oh baby you can't disguise  
that look in your eyes  
the way that you feel, your love  
it's slippin away  
slippin away from me

what is it about me  
(you don't understand)  
what is it about me  
(that made you change your plan)  
what is it about me  
(that makes me love you so)  
what is it about me  
i can't let you go  
i can't let you go

can't we find a way back?  
how did things changed?  
i always believed that  
we could make it through anything  
oh baby you can't disguise  
that look in your eyes  
the way that you feel your love  
it's slippin away  
slippin away from me

what is it about me  
(you don't understand)  
what is it about me  
(that made you change your plan)  
what is it about me  
(that makes me love you so)  
what is it about me  
i can't let you go  
i can't let you go

why is it so hard to please you

never seem decide of you  
what is it that got you freakin  
what am i supposed to do?

what is it about me  
(you don't understand)  
what is it about me  
(that made you change your plan)  
what is it about me  
(that makes me love you so)  
what is it about me  
i can't let you go  
i can't let you go
