Let me tell you something baby girl.  
I wanna tell you what I feel,  
Here it goes:  
Babe...  
I miss you a lot.  
And ima tell you why...

Hey there baby girl I miss you,  
Long time since I've been with you,  
I miss your smile,  
It's been a long time,  
Girl I can't be without you.  
Hey there shawty do you miss me,  
Run along don't separate it  
Wanna be with me,  
I'll take you wherever it is  
You want me to be.  
Let's take a trip back in time.  
Back to the top of the line.  
Revive memories of you and me  
Sit back, relax now.  
There is no holding back now  
Let's take a ride,  
To the other side  
Baby in our world  
And see how this thing goes...

Heyy,  
Girl,  
You're my shooting star...  
Heyy,  
Girl be...  
My Shooting Star...

Heyy,  
Girl,  
You're my shooting star...  
Heyy, (Baby)  
Girl be...  
My Shooting Star...

Shooting Stars don't come,  
So often...  
It takes 'em a while to arrive,  
But you're the only one  
That comes around every,  
Once in a while.  
Now come back to me girl,  
Don't wanna miss your show.  
Wanna be with you,  
Can't help it to  
Be around by your side for you,

Heyy,  
Girl,  
You're my shooting star...  
Heyy,  
Girl be...  
My Shooting Star...

Heyy,  
Girl,  
You're my shooting star...  
Heyy, (Baby)  
Girl be...  
My Shooting Star...

Yea,  
This goes out to all the girls,  
But specially one person,  
I love her a lot,  
And I miss her.  
{ {I Love You} }
