I never met a girl
That's as beautiful like that,
It got me going crazy,
Didn't know you like that.
Something tells me
That you are looking
For someone.
To sweep you off your feet,
And to give you
All that is right.
I'll hug and kiss you
All throughout the night.
And if you don't like that
All you gotta say is "stop"
Girl I'm here to give you
All that you want.
Don't worry about a thing,
I'm be that one guy.
The one to treat you right,
And to tell you every night.
Don't be scared
Everything's gonna be alright.
Don't have to your man
I'll just pretend to be your guy,
Honey let me tell you
That tonight we goin' fly

[2xs]
Tonight we goin' dance
Tonight we goin' fly
Tonight we're gonna say
That we can both try
Tonight we goin' glance
Tonight we goin' cry
Cry at all the things
That hurt us in the past

Baby you're so perfect
Oh girl you're so fine
I never had the thought
That you would be the one

The one to drive me crazy
The one to show me love
No matter where you are
I'll always be your one
Don't know if this is real
Don't know if it is not
But all I wanna say
Is never wake me up
Because that's the beauty
That you bring me tonight
Give me your number
And tonight we goin' talk
Your smile is so perfect
Your body's so fine
Baby girl I love you
But you didn't find out
Don't know how to say this
But baby you my love
I have waited too long
To ask you girl out

[2xs]
Tonight we goin' dance
Tonight we goin' fly
Tonight we're gonna say
That we can both try
Tonight we goin' glance
Tonight we goin' cry
Cry at all the things
That hurt us in the past
