My hearts head on
Its contained
You are in love
But not with me
Saw them from afar
Wanting to depart
I know where you are

Felt like all my words would fade
Felt like my time was yours to waste
I barely recall what tore us apart
I know where you are
Cuz i've been there before

What we've become
barely what we used to be
We were the city
You were the glass
And I was still (x2)

My hearts head on
its contained
You are in love
But not with me
so what, who cares
I know that theres
Another you.....

So what we've become
Barely what we used to be
We were the city
You were the glass
And I was still

Do you know what it takes when things just turn out
wrong?

What we've become
Barely what we used to be
We were the city
You were the glass

and I was still
What have we become?
Barely what we used to be
We were the city
You were the glass
and I was still

What we have become..
Barely what we used to be
We were the city
You were the glass
And I was still
