They say you should wait a while
But I fall every time you smile
They say it's all just a game
If that's true then I'll take the blame
Cause I - I've got love on my mind
And I don't wanna let you go
Chorus
Don't run away with my heart
I wanna fall in love not fall apart
Be careful what you do
Cause I'm hooked on you
If you let me go
It would hurt me so
I've heard it so many times
They say you cannot believe the lines
But I've got nothing to lose baby
I'd rather break the rules
Than live a life all alone
'Cause I'm too afraid to fall
Chorus
Make it all that I dreamed
Wanna feel everthing
That love is supposed to be
Baby I wouldn't lie
It feels so good inside
Don't ever wanna say goodbye
Repeat chorus to fade
