I was out with my girls
Having a good time
We were cool
It was on
To party all night
And then you
Walked by
You took my breath away
It was love at first sight
Now you're here to stay
Must Be Magic
The way you
Got me open baby
Hopelessly devoted baby
In love with you
Must Be Magic
The way you
Got me crazy
Can't you see
Coz love put a thing on me
I feel dazed
So amazed
I'm on cloud 9
Make me weak
In my knees
You give me butterflies
I know in my heart
This would be so right
You're the joy
In my life
You bring me sunshine
Chorus
You make me jump
And I don't know why
You got something special
Baby it's in your eyes
Boy I wanna be
The only girl in your life
Ooh yeah, it must be magic
You are the one for me, I'm so in love
With you baby

You are my everything, my only dream
You're all I need
You are the one for me, I'm so in love
With you baby
You are my everything, my only dream
You're all I need
Chorus
