"Precious Time"

Visit "[Precious Time](#)" on MotoLyrics.com

You keep missin' my call
When we've got so much we need to say
Did we go through it all
Just to let our future slip away
And maybe I'm an optimistic fool
But I still believe in you
Don't make me wait
'Cause we're runnin out of precious time
(Runnin out of precious time)
It's never too late
But I've seen the warning sign
And we're running out of precious time
You can't make up your mind
So give your heart a listen
And you'll wake up to find
It's my love you're missing
Maybe I'm an optimistic fool
But I still believe in you
Don't make me wait
'Cause we're running out of precious time
(Runnin out of precious time)
It's never too late
But I've seen the warning sign
And we're running out of precious time
I know we're only human
But somehow we have got to just hold on
Don't make me wait
'Cause we're running out of precious time
(Runnin out of precious time)
It's never too late
But I've seen the warning sign
And we're running out of precious time
