You gotta run don't walk, it's really late
When you get off the train, meet me at the gate
You gotta push don't shove
Get it out of the way
Don't wait any longer, do it today

[Chorus:]

You can count on me
I'm gonna get it done, get it done
Before the night segues to day
Before the city wakes
Before the rooster shakes
Before the icing hits the cake
We gotta operate

You gotta glide, don't slip
Get your balance right
Ride with the wind, it's a beautiful sight
You gotta skip, don't jump
The little bumps on the way
Don't let it get to you, don't listen to what they say

[Repeat Chorus]

You gotta squeeze, don't pull
Hold that grip steady
You know it's all lining up
You can never be ready
You gotta seek don't hide
Don't sit and wait
'Cause it may pass you by
And it'll be too late

[Repeat Chorus]

Hey hey! [3x]
