This day is gettin older, and fading light is beautiful,
This wind is blowing colder, and too soon I feel its pull.
Still I took all my chances earned myself an even score
try to learn
my lessons well.
And I don't have the answers, for those questions
anymore, only
love can be both heaven and hell.

So sturdy up sturdy up ur heart, for the road is long
ahead.
I'll be with you even though we're apart,
but your road is yours to tread.
And so it goes and so it goes and so it goes
slows your mind mind mind.
So it goes and so it goes and so it goes slows your
mind mind mind mind mind

I've grown old on this ocean gave her all my stronger
years,
gave my wife my devotion when she died the ocean my
tears.
I've tried to teach you well son all of everything I knew
of how to live
this life be true. Don't bow your head to no one and no
matter what you do
if you start then see it through.

So sturdy up sturdy up ur heart, for the road is long
ahead.
I'll be with you even though we're apart,
but your road is yours to tread.
And so it goes and so it goes and so it goes
slows your mind mind mind.
So it goes and so it goes and so it goes slows your
mind mind mind mind mind
