Take me down to the dreary basement,
where the sun never ever shines.
And show me where you spent the days,
that killed the smile in your eyes.

When you told me what you tried to do,
you made me want to do it too.
And when you told me what you tried to do,
you made me want to do it too.

Well. you said suicide,
in your head there's a suicide.
In your head there's a suicide.
So this is suicide.

Oh, here it comes, another day,
when the slightly difference shade of grey.

This is suicide.
This is suicide.
So this is suicide.

This is suicide.
This is suicide.
So this is suicide.
This is suicide.

So...
This is suicide.
This is suicide.
This is suicide.

So this is suicide.
