Well I've heard you're just the one I'm looking for  
And everywhere I go you know I hear it a little more  
Well it could be idle gossip 'cause you know how all  
that starts  
But honey I think I heard it from my heart

Rumor says I'm crazy over you  
Well I've got to check the source before I say one word  
is true  
Comin' from anywhere else I wouldn't pay it any mind  
But I think I heard it from my heart this time

I think I heard it from my heart  
A subtle whisper soft and low  
But loud enough to let me know  
It's time to say I love you  
And honey that's where I'll start  
And you can say you heard it from my heart  
Good news travels fast and I've been told  
Talk is cheap but what I've said is worth it's weight in  
gold  
Sayin' I love you turned out to be my favorite part  
Once I finally heard it from my heart

I think I heard it from my heart  
A subtle whisper soft and low  
But loud enough to let me know  
It's time to say I love you  
And honey that's where I'll start  
And you can say you heard it from my heart

I think I heard it from my heart  
A subtle whisper soft and low  
But loud enough to let me know  
It's time to say I love you  
And honey that's where I'll start  
And you can say you heard it from my heart
