Baby crying]

[Az]

Close ya eyes and fly with me

Spark a lie get high with me

Bitch leaise with me

Come inside and see

[Monifah]

Seeeeeee with meeee

[AZ]

C'mon, C'mon

Close ya eyes and fly with me

Light ya lie get high with me

Bitches eyes 'll see

[Verse One - AZ]

Yo, blessin's to the young ones trapped in the world

Never hate the next man that be tappin' your girl

It's just a hype

So many things a man vision through life

Help me to understand the chosen ones livin' through
Christ

Blind in time from so many signs showin' from greed

Tryin' to calculate all the firms

I blow em for weed

Started out just a young shorty breaking the rules

Turned out to be the wise educating the fools

So many lost is these last dayz

Closed curtains

Tryin' to change from my past ways

I'm soul searching

Diggin' deep tryin' feel within

It's real ill

Takin' time just to chill with friends

We still build

Always told when I kick it with moms

To stay strong

Watch out for the bitches thats wicked

That play wrong

Keep your game strong

Maintain yourself and live

God bless the kids

Soon somethin' gotta give

[Chorus - Monifah]

The last dayz

Are comin'

Towards you

It's time to bid

???

The last dayz

Are comin'

Towards you

It's time to bid

AZ tell 'em my dear

[Verse Two - AZ]

You kinda know when your end is near

I been there

Seeing years disappear

Been there

Nobody wins here

Swore on the population

We fightin' blind

For sure we need to stop the hating

And lightin' mines

Many die from a tradic death

In cold blood

But hoggin' niggas lost black respect

Show love

Sometimes I wonder was we ever free

High officials

They move so cleverly

Don't ever sleep

Got my mind on a proverb

Ecclesiastics

These bible words so absurd

I beat 'em back

Was the open doors

Gave me a cause to stay swift

And for war

It gave me the swore to stay rich

Understanding is the best part

Besides that

A fella of to a fresh start

No time to sidetrack

So much more still to come

It seems strange

I was much more iller young

But things change

Tryin' to grow old

So many sights to see

Told 'em never fall

Just move righteously

You know

[Chorus - Monifah]

[Verse Three - AZ]

I never knew any bloods and crips

But they exist

In New York it's just thugs and clicks

We offer chips

Makin' moves tryin' to stay afloat

It get deep

In these streets you either stay awoke

Or get beats

And strategize like the wise kings

Respect due

Others get high

Let their mind scheme

I got ??tacuu??

In this world where so many stress

Understand

Ain't nothin' left but the thoughts of the death

We sons of man

So I practice the same as C

It's Oprah season

Got police moving dangerously

For no reason

Hope that soon we can all adapt

Get wise

And realise who the soul 'll trap

In diguise

Assassinated by my own kind

So why act

And cause blacks to have a closed mind

Deal with facts

Keep your eyes open

Never rock yourself to sleep

Love to the East

Let the dead rest in peace

[Chorus - Monifah] x 2

[Outro - Monifah]

We gotta do

what we gotta do

Brothers, sisters

You gotta wake up

You gotta wake up

Ain't nothing gonna come from this

We gotta make it right now

We gotta make it right now now

Oohhhhh
