Break of day, the dawn is here
Johnny's up and pacing
Compromise, or persevere
His mind is racing

Johnny has no guide
Johnny wants to hide
Can he make a mark if he gives up his spark?
Johnny can't decide

Susan longs to live by the sea
She's through with competition
Susan wants a family
Johnny's got a tough decision

Johnny has no guide
Johnny wants to hid
Can he settle down
And still not drown?
Drown
Johnny can't decide

Michael's gonna have it all
His luck will never end
Johnny's backed against the wall
Can he bend his dreams just like his friend?

Johnny sees that Susan's right
Ambition eats right through you
Michael doesn't see why Johnny holds so tight
To the things that Johnny feels are true

Johnny has no guide
(Johnny has no guide)
Johnny wants to hide
(Johnny wants to hide)
How can you soar if your nailed to the floor?
Johnny can't decide

I want to write music
I want to sit down right now at the piano

And write a song that people will listen to and
remember
And do the same thing every morning for the rest of
my life

Johnny has no guide
(Johnny has no guide)
Johnny wants to hide
(Johnny wants to hide)
How do you know when it's time to let go?

Johnny can't decide
(Johnny can't decide)
Johnny can't decide
(Decide)
Johnny can't decide
(Johnny can't decide)
Johnny can't decide
(Decide)

Decide
Decide
Decide
Decide
Decide
Johnny can't decide
