So I've been smoking on the cigarettes
And I've been driving with the windows down
And the music up
And I've been thinking bout everything

I need a top down and I'm gonna release
Where's release in the harder way
When I'm reckin
In the cock down in the bottle release
Don't release town in the wrong way
And I get lone, in the...

Give me your question girl I answer it
Know my hands for a bit you can just pause
Listen to my heart beat, listen to my heart beat

All my ladies big...
Cops, fuck for that
What she sayin man?
What the fuck is really plan?
Do you really know that's it?

I need a top down and I'm gonna release
Don't look at people speak
And we don't know
I need a top down and I'm gonna release
Don't release town in the wrong way

Take me down to the downtown... and say
And I can't get alone

Run your fingers through my head
For a second do this in my bangs
I got the things perfect
And I won't nobody touch in my bangs
Just touching my thing
Put your hand upon my...

So all been down upon my knees
Begging please for the ring to follow me for weeks
When you drive in the streets and when the streets

running wet
Like a P Diddy video set
I'm looking at you in your eyes and you're feelin so
connect
Yeah take that, take that
What she said?
When you reach your hand inside of my pants
Inside of the touch the head
And I touch my head like shit like hold a second
I just hide it up inside of this mess
And all of a sudden my fingers tip is crazin tip holdin
your breath
And I realize that I made myself goddamn mess
There's no escape from this
Eventually your father shut gun is in my back blades
And I'm tryin to escape the goddamn place so thanks

And my soul and I can't cry when I am gone
And now I wanna die

I need a top down and I'm gonna release
There's release in the... money
Take me down to the downtown... and say
Take me down to the downtown... and say
