Mind your step you'd be a traveller  
No one tells you when or where to go  
Mind your love don't let them fool you girl  
The once who see you are broken

Chorus

Big girl I am ready to go away from you  
Like you do in the movies  
Grow up be a mindful traveller

Endless roads they make you understand  
So much more to think about when nothing is in the way  
Endless conversation are shaking your head  
Every day is making you stronger

Chorus

Oh never forget I will

Chorus

I hear love let me go this time  
And everything is .. for you  
Chorus

Thanks to feel
