All the dark times you made me live, repent!
All the lies you threw on me
The scars are still burning
Deep in my chest
It's not the end,
This is just the time to paint your fucking mind on the
wall

You fucking queen of tragedy
You just bring me pain
You are nothing to me
So sing along to your demise

You fucking queen of tragedy
You just bring me pain
So sing along to your demise

You're so ideal
Perfect to cover with blood
Take your breath and say goodbye
No one will cry
No one will cry
I got the right to fight
You know i try
Now die!

Tell me, will you lie
To prove you're alright
Will you lie to
Save your godamm life

You will try hard to make me lose control
I will stand strong until the day you fall
Tonight, right here tonight,
I am the nightmare brought to life

Breaking your heart

Heads will roll
Body's will cry
I will not bow

I will not die

All the dark times you made me live, repent!
All the lies you threw on me
The scars are still burning
Deep in my chest
It's not the end,
This is just the time to paint your fucking mind on the
wall

You will scream
You will bow
You will know what it's all about.
You were the blood in my veins,
You were the smell before the rain.
I will never be the same again
Not again!
