You have never  
You never had the courage  
you could never say no  
To the nation  
Spilling lies upon lies covered in guilt  
A superior force  
A gun  
A curse  
Just a puppet in their hands

(Chorus) 2x  
I see you on the other side  
Every day and every night  
There's a wall between our lives  
I never hear you but I see you crying

You will rise, obey your nation  
Now love is dead like every man's affection  
You will bleed, will cry for mercy  
There's no confession there is no forgiveness  
Stand again and scream like ever  
Extend your arm and show that you are brainless  
You will kill , will rape your brother  
Build the bridge from tiny bones and smiles

(Chorus) 2x  
I see you on the other side  
Every day and every night  
Theres a wall between our lives  
I never hear you but I see you crying

Burn their skin  
Inhale your victory  
Show your pride by killing all the faceless  
Use your gun for what you need most  
Blow your brains  
And make me fucking happy

This is our perception  
That all ends in this world that we live  
Built on deception we repress our hearts

Crumbled buildings now replace our tears  
Walls rise, separation takes place  
We are left here to rot, to sides no love  
The rainy vision of our sad ugly mind!

Black soul, dark heart,  
Long days before we understood.  
There's no truth, there's just lies.  
Are we lost in the sins of time?  
You stand up! You will fight  
For what's left, what is inside you.  
Can you love? Can i cry?  
Love is back!

The epitaph of hopelessness

Hopelessness!
