Struggling to let you know  
Redemption to save our souls  
I need to let you go  
Now save me from the unknown

I'll never forget your face  
Not even if the skies explode  
I'll never let go of your love  
You'll always give me hope

In this dark place called home  
I never felt so alone  
I'll never let go of your love  
You'll Always give me hope

Imagine that I've got you where I want you  
Imagine what would be if that was true

Please!  
I need you to believe in me  
Desperately!  
Let's agree to disagree  
Now!  
I need to disappear somewhere  
Definitely!  
Somewhere far from here

In this dark hour I need to find myself a light,  
To guide me until the day I will close my eyes

The truth in your eyes that I can't explain  
They're full of regret and full of pain

I've been trying to find some hope  
Struggling to let you know  
I'll never forget your face  
Not even if the skies explode  
I'll never let go of your love  
You'll always give me hope

In this dark place called home

I never felt so alone  
I'll never let go of your love  
You'll Always give me hope

Imagine that I've got you where I want you  
Imagine what would be if that was true

(x2)  
Please!  
I need you to believe in me  
Desperately!  
Let's agree to disagree  
Now!  
I need to disappear somewhere  
Definitely!  
Somewhere far from here

In this dark hour I need to find myself a light,  
To guide me until the day I will close my eyes  
Give all my gold, all my pride just to say goodbye (2x)  
I still feel you  
I still need you
