I walk away
But i lost my soul and pain
The sky's in flames
And god won't help me find my way.

Wake up, open your eyes.
Try to recognize where you are.
All those clues, are burning,
No life,
No guns
Just blood and dust
No sound, just an empty darkness.
No one ever heard the truth of lies.
Nothing moves, nothing passes by.
Bones, eyes and skulls, rotten hearts!

All gone, all done.
Trashed and scared I was,
Dead and buried I am.
No bounds, not found,
The millions that god forgets,
So high that Jesus gets.

Wake up, open your eyes.
Try to recognize where you are.
All those clues are burning,
No life,
No guns
Just blood and dust
No sound, just an empty darkness.
No one ever heard the truth of lies.
Nothing moves, nothing passes by.
Bones, eyes and skulls, rotten hearts!

All gone, all done.
Trashed and scared I was,
Dead and buried I am.
No bounds, not found,
The millions that god forgets,
So high that Jesus gets.

Wake up!
Open your eyes.
Try to recognize
Where you are.
Wake up!
Open your eyes.
Try to recognize
Where you are.

Reveal your inner path
Chose your side
Reveal your inner faith
Stay true, don't be afraid to die

All gone,
All done.
No bounds
No sound
All gone,
All done.
No bounds
No sound

LIAR
Forget about the past and seize the day
LIAR (forget about the lies and live free another day)
Forget about the past and seize the day
LIAR
Forget about the past and seize the day
LIAR
Forget about the past
Forget about the past
And seize the day
