Step outside and listen on,
Choose the day daily,
I'm in love, I'm not a

Patience is the only key,
To all the things in life we need,
Days and nights, all in good time

I have to take it slow, it's only true love
This time I let you go, it's only true love

Strike the match and let it burn
Feel the slow, narrow turns
Your, I have to

Light the fuse and step away,
Throw the pills down the drain,
Follow love, fight to stay sane

I have to take it slow, it's only true love
This time I let you go, it's only true love

Somebody show me, Somebody show me...

Take it slow, it's only true love
I, let it go, it's only true love

Up and down the cycle starts,
Throw the bi-polar darts,
For my heart, fight to stay sane
