And we tried to give up  
With different eyes  
We have seen  
But we cut our wings  
With our own hands

Laughed at our own sadness  
Cause is too easy to be sad,  
Too difficult to be happy  
You know...  
And maybe something can take us  
To a perfect condition  
To understand all this shit

And everyday our desire  
Is to return to our prison  
And follow the line of a sick brain

Our voice is trapped  
In a river of whispers  
Our walls are nice and pleasant,  
We love their lovely cold touch  
To swallow in our

Scarred melancholic solitude

We are not inspired to...  
We're not really inspired to...  
We don't really care to...  
We don't really think of...  
We are not capable to...  
We don't really enjoy to...  
We don't really like to...  
Be something!

And maybe showing our emotions  
It's only a way to hide our true selves

Come on Let's go!  
Doors are closing  
I am trapped inside

I control this situation  
From the dark of my condition  
I'm the ruler of my future  
I'm not trapped, this is me: free!

Go now, fuck you all!  
Blood runs down the wall  
Time and time I tried to go  
Against these walls I broke my soul

Scared now I escape  
I realize this dream of mind  
Lost and naked here I come  
Sorry man... I prefer my hole
