### "Stand In Line"

Bringing the hate against those lonely souls  
They take every chance they get to control  
Manipulation is their weapon and questions are their  
answer  
Is there any hope

Abused, scared, by your lies and deceptions  
Abused, scared, but still I stand tall

Stand in line, salut your superiors  
Blend in with the masses  
Obey, bow, give up life or turn them away

Abused, scared, in a world god left  
Abused, scared, stand in line obey every word

Stand in line, salut your superiors  
Blend in with the masses  
Obey, bow, give up life or turn them away

Stand in line obey every word  
Stand in line obey every word  
Stand in line obey every word  
Stand in line obey every word
