In the middle
Of the way I am
Come be who you are
Bring your spirit
Like a living stream
To the center of my heart
And let it flow
And let it wash over
And let it over whelming
Like the sea
Spirit flow
And river wash
Every part of me
Come thou fount of every blessing
Come be who you are
Bring your healing
Bring your goodness
To the center
Of my heart
And let flow
And let it wash over
Over whelming like the sea
Spirit flow
And river wash over every part of me
Ohh
(Come be who you are)
Oh Oh Oh
(Come be who you are)
And let it flow
And wash over
Over whelming like the sea
Spirit flow
River wash over every part every part
And let it flow
Let it wash over
Over whelming like the sea
Spirit flow
River wash over every part of me
(Come be who you are)
Come be who you are
