There's always just one more thing  
There's always another task  
There's always, I just have  
One more small favor to ask

Everything is urgent  
And everything is now  
I wonder what would really happen  
If I stopped somehow

I'll be there in a minute  
Just a few places to go  
You wake up a few years later  
And your kids are grown

Everything is important  
But everything is not  
At the end of your life your relationships  
Are all you're got

And love to me is when you put down  
That one more thing and say  
I've got something better to do  
And love to me is when you walk out on  
That one more thing and say  
Nothing will come between me and you  
Not even one more thing

There will never be an end to  
The request upon your time  
It's your place to stand up and tell the world  
You've got to rest awhile

And everything is important  
But everything is not  
At the end of your life your relationships  
Are all you've got

And love to me is when you put down  
That one more thing and say  
I've got something better to do  
And love to me is when you walk out on

That one more thing and say  
Nothing will come between me and you  
Not even one more thing

Just one thing, just one thing  
Just one thing, just one thing  
Just one more thing  
Just one thing, just one thing  
Just one thing, just one thing  
Just one more thing

Be there in a minute  
Be there in a minute  
Just one more thing
