"The One Thing I Know"

Visit "[The One Thing I Know](#)" on MotoLyrics.com

And the clouds just parted on a corner of my life
And I can see for miles
And the things I was stuck on
Things I thought would never change
They just broke open wide
This is the one thing I know
You said you won't let me go
You said you won't let me go
You've done a good work in me
And you won't quit till I'm free
And the veil just lifted
I can finally understand
The way you work in me
But even if I didn't
You are still a sovereign God
Who has a plan for me
It's good to know you work with hurt and broken souls
That you'll take a soul like mine
And in all the world nothings taken hold of me like
Christ
This is the one thing
This is the only thing
You are the one thing
You are the only thing
This is the one thing I know
You said you won't let me go
You said you won't let me go
You've done a good work in me
And now your making me free
