f/ Tragedy

(Live moti-) (live motivator) (4x)

[VERSE 1]

I have the mind of a sick psychiatric

Protegees perish with my tactics

Terminate, excel, I bust brain cells

I'm international, my name ring bells

Define definitions like a dictionary

Impulse impact, cause I'm a visionary

Tragedy elevates to the exterior

Imperial superior, you're inferior

Intelligent trooper, I detect

And I design paragraphs like a architect

Spittin fire like a serpent, lyrical merchant

Translatin transcripts, and I interpret

Their level of progression, born to detour

Able to lift a ton of lyrics like a 4x4

Paragraph professor, strong metaphor

Pumpin bass like a Bertha, talkologist inserter

Torture, slaughter - then I murder

Gladiator rebel, trained to cause havoc

The microphone manipulator, and I'm Tragic

Science is dropped when times are convenient

I label the lyricist a form of genius

Rhyming is a skill, the source is energetic

My techniques are brilliant, and I'm hyperkinetic

Individual intelligent, concept navigator

Tragedy, the Live Motivator

[VERSE 2]

Recite rhymes like a poet use the pen for my
endurance

Techniques are abusive, so is my performance

Record rotating, life is motivating

The master of lyricists, rhymes coordinating

Einstein of lyrics, mad psychopath

Rather listen to the Trag on your phonograph

Original Asiatic, rhymatical mechanic

Jettin like a Uzi ammunition automatic

On the strength, I'm terrific, rhymes are hieroglyphic

Use a potion in a motion, my brain is scientific

Rhymatical motivating, chief-annihilating

The lyrical poet be your exterminating

Born to destroy, talkologist terminator

The rebel of the treble, the Motivator

[VERSE 3]

Rock a jam and emotion elevate and increase

Jettin words by the syllable, piece by piece

Pronunciation is related, rhymes are updated
