Wait

Before you leave I've got something to say
so listen to me

I know you wanted to hate me
When you found out that I lied, yeah
I wanna spend eternity
But you say you've been deceived
Now you say you wanna leave
But I say

Hell no, hell no - I won't let you leave me this time, no
(no, whoa)

Hell no, hell no - Don't act like you never lied to me
(don't act like you never lied to me)

Hell no, hell no - My actions are not just a fight (are not
just a fight) Remember the many nights I cried
So hell no you can't leave me this time

Now under the circumstances
Do you remember what you did to me (to me)
When I found that other hootches pictures
Had 'em hid inside a Dru Hill cd

I'm not trying to go back and forth
I'm just trying to let you know
I've forgiven you a hundred times
So baby I'm not gonna let you go so

Hell no, hell no (hell no, hell no) - I won't let you leave
me this time, no (don't leave me)

Hell no, hell no - Don't act like you never lied to me
(don't act like you never lied)

Hell no, hell no (oh no)- My actions are not just a fight
(I'm so sorry baby)

Remember the many nights I cried
Hell no you can't leave
This time (this time)

Don't leave me now
I'll be here if you stay (stay right here)

Hell no, hell no (Oh, no) - I won't let you leave me this
time, no (don't leave me)
Hell no, hell no - Don't act like you never lied to me (oh
don't you go away)
Hell no, hell no - My actions are not just a fight (I'm so
sorry, I'm so sorry baby)
If I forgave you baby when you left
Hell no you can't leave me this time

Hell no, hell no (what do you think?) - I won't let you
leave me this time, no (do you think I can be all alone?)
Hell no, hell no - Don't act like you never lied to me (but
you lied to me before, yes you have)
Hell no, hell no - My actions are not just a fight (can you
forgive me, can you forgive me baby?)
(Hell no) Hell no you can't leave me this time

Don't leave me no
Stay right here
