There's no ice on the ocean  
As the waves crash on my feet  
No chill in the atmosphere  
Like you said there'd be

No frozen highway  
Don't need the chains you left for me  
Cuz there's no truth in your forecast  
About the day that you would leave

Cuz it's never cold in California  
There's always someone here  
To tell you that they love you  
When others disappear

It's never cold in California  
Cause I'm still here  
I'm still here

I don't need a weatherman  
To warn me of the storm  
Cuz I felt it growing closer  
In the calm right before  
And as the clouds are filling up the sky  
The rain feels warm to me

Cuz it's never cold in California  
There's always someone here  
To tell you that they love you  
When others disappear

It's never cold in California  
Cause I'm still here  
I'm still here

If the seasons pass  
And nothing lasts  
And your world turns dark and blue  
Know the sun is always shining here for you

Cuz it's never cold in California

There's always someone here  
To tell you that they love you  
When others disappear

It's never cold in California  
There's always someone here  
To tell you that they love you  
And I won't disappear

It's never cold in California  
Cause I'm still here  
I'm still here  
I'm still here
