I don't know what happened to the love we shared  
Don't know sometimes I think its just not fair  
I know the pain I feel inside my heart  
I wish I'd known it from the start  
That you would come and break my heart  
I can't hold back these tears in my eyes  
The feeling of pain inside me cause

Chorus

I'm dreaming of love  
Thinking of you  
Remembering times that we once shared  
Dreaming of love  
Thinking of you  
And knowing someday you'll come back to my life

I try to love - but it just don't feel the same  
I know - for once in a lifetime I'll take the blame  
God above  
Hear my prayer  
Bring her back to me  
I wish I'd known it from the start  
That you would come and break my heart  
I can't hold back these tears in my eyes  
The feeling of pain inside me cause

I'm dreaming of love  
I am dreaming of love

I don't know - why did you leave me all alone  
I know - for once in a lifetime I'll take the blame  
Now I know the love I feel inside my heart  
I wish I'd known it from the start  
That you would come and break my heart  
I can't hold back these tears in my eyes  
The feeling of pain inside me cause

Chorus (1x)
