I'm sitting here, I'm sitting here
and I'm waiting for that light (that never comes) a little
bit closer

And then when it began, when it began, a little bit
closer to myself

When it began a little bit closer

And then when it began, when it began, a little bit
closer to myself

When it began a little bit closer

And I'm sitting here alone, just waiting for
For the Fire Storm

When it began, when it began, a little bit closer to
myself

When it began a little bit closer

And then when it began, when it began, a little bit
closer to myself

When it began a little bit closer

And then when it began, when it began, a little bit
closer to myself

When it began a little bit closer

I'm sitting here, I'm sitting here
and I'm waiting for that light (that never comes) a little
bit closer

And I'm sitting here, And I'm sitting here

And I'm waiting for that light, someday

And I try to break, the conversation falling into me
and I'm coming nearer to that point the end has set me
free

And I'm sitting here alone, just waiting for

For the Fire Storm

When it began, when it began, a little bit closer to
myself

When it began a little bit closer

And then when it began, when it began, a little bit
closer to myself

When it began a little bit closer
