I never tried to weaken this feeling, I never thought I  
would eat dust  
I never asked to be the victim of your lie  
Could never know that they are coming,  
never know what they have in mind  
You never spoke about your secrets or what they try to  
find  
All that I can do is to decide and the only way is now to  
hide  
Come into my dream, come into my dream  
Never go away my dream away because tonight

See you safe, see you safe if I hold on to my dream  
See you safe, see you safe if you won't leave this scene

Face to face and God to God, you have to stay  
Don't fall apart, don't turn around, just look at you  
So much pain you're going through  
and raise your fist and start to fight  
You have to slice the darkest night,  
Your lies, your sins, they're straining you  
Nothing left what can you do

Come inside, I know, know what I demand,  
your hunters aren't far away  
Don't think about what will be if you cannot escape from  
here  
cause you have to pass  
Tell my goddess, I know I will be back soon  
Can't you see that time is running out  
You have to lead cause you know here I'm blind

Pitch Black - Will you follow the Lord inside  
Pitch Black - You don't know what he has to hide  
Pitch Black - Do not close your eyes inside  
Pitch Black - Don't forget how to stay alive  
Pitch Black - Smell the blood on the floor  
Pitch Black - Closing every door

This will be the last time, how can we still remain  
This will be the last time, can we try to regain

All those things that we've lost, this will be the last time  
That I ask my heart before, I fall into the dark
