Oh no, Yeah  
Yes I'm gone Yeah

There is a world I've never known  
I'll never know again

Am I aglow with happiness, well I think that's for sure  
So note this down, I can't describe what can be  
described  
And in bad times I'll remember that time

If you were dying will no longer crying  
The scene of cetera is waiting for you

An if you were crying your world seems to dying  
The scene of cetera is waiting for you

Rewarded my doings, I just enjoy to be alive  
I caress my daughter and put her lovingly to bed  
My unique marriage is what, I was always looking for  
And laying down and ask myself could there be even  
more

If you were dying will no longer crying  
The scene of cetera is waiting for you

An if you were crying your world seems to dying  
The scene of cetera is waiting for you
