Got the news the other day  
A child's innocence taken away  
You were never scared, I'll always care  
Grandson to son and a memory we'll never lose in time

Am I making you proud of me?  
Cause I know you can hear me

You were too young, too fast for you to go  
And now I don't understand why  
I can't stand to watch a mother and father cry  
I look up to you

Four years your younger brother calls me to always  
wonder why  
If its the only way, I'll talk to you  
Home is not home  
I swear I still see you  
I miss you

Am I making you proud of me?  
Cause I know you can hear this

You were too young, too fast for you to go  
And now I don't understand why  
I can't stand to watch a mother and father cry  
I look up to you

You were too young, too fast for you to go  
And now I don't understand why  
I can't stand to watch a mother and father cry  
I look up to you

You were too young, too fast for you to go  
And now I don't understand why  
I can't stand to watch a mother and father cry  
I look up to you  
I look up to you
