Well did you think we'd let this slide?  
We tried to leave this mess behind us  
But here we go again  
Keep on writing songs about us  
(About how you could never be without us)  
You can run but you can't hide, from the lies

Without  
Without you  
We are everything you said we couldn't be  
Without  
Without you  
Everything you'll never be

We knew something wasn't right  
First time we saw that look in your eyes  
There you go again  
Thinking everybody owes you  
(If you recall they control you)  
Your whole persona is contrived, you're a lie

Without  
Without you  
We are everything you said we couldn't be  
Without  
Without you  
Everything you'll never be

Without  
Without you  
We are everything you said we couldn't be  
Without  
Without you  
Everything you'll never be

And if we see you on the street  
You better lie down at your feet  
You need to understand that this is not a game  
You feel the pain

Without

Without you  
We are everything you said we couldn't be  
Without  
Without you  
Everything you'll never be

Without  
Without you  
We are everything you said we couldn't be  
Without  
Without you  
Everything you'll never be
