Oh there's a funny light
In the stars tonight
You and I will ride
All the factories
All the memories
Have changed
Will you work it out?
Will you see that I'm going no where else?
I don't know where you
Think and start again
But I, I know in all we've said
I finally know how it began
It's nothing that I can even explain
Til we begin tonight
Is it a righteous fight?
The sentiment's not right
Will you work it out?
Will you sell it all
To find me?
All the weapons are
Finally coming out
But now you see that I
Only wanted to
Have it out with you

Remember our love
Whoa but in the coldest light you see
You see what you want
And you break it all
Find it somewhere else
You say that our love
Can't be a baton in your part
You say that our love
You say that our love
Is only mat
Ooooh look above you now
There's a heavy cloud
Hanging over us
All the factories
All inflameries
Are closed
Do you wake at night

Wishing you'd relied on someone else?
I don't know what you
Think you find again
But I, I know in all we've said
I finally found where I'll begin
It's somewhere I can't even explain
