In the heat of the moment  
In the dark of the night  
You never see his face  
For hes the ghost inside  
In the heat of the moment  
He will laugh at you  
How can you make peace  
When hes at war with you

In the heat of the moment  
Youre a perfect guy  
Born to make mistakes  
He knows the reason why

Hes a shock to the system  
Hes a wicked clown  
No matter what you do  
He turns it upside down

Hu hu hu hu hu hu  
Ghost in the machinery  
Hu hu...

In the light of a new love  
In the dark of night  
You can fall asleep  
And dream hes out of sight

In the eyes of the children  
You can read his name  
Theyll make the  
Same mistakes  
And thats the only way  
Hu hu...
