Sky's the limit and you know that you keep on, just keep  
on pressing on  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
(keep on pressing on)

Radical ones, jump over the eye  
To tell me bout my roots and talking you behind  
They wanna come and test us, each and every time  
But you stand on the edge, it's my favorite waste of  
time  
Create something new, hypocrites must step back  
Cause when we come together it's atomic attack  
So let it be known for each and everyone  
Sky's the limit and we've only just begun

Sky's the limit and you know that you keep on, just keep  
on pressing on  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
(keep on pressing on)  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
(keep on pressing on)

From all of the chances in a world  
You gave me this one, which is the most yearn  
I appreciate the trust but weren't you concerned  
That when we get together we might get burned  
I know we storm the stage and you rock the spot  
But some might say this is not rock  
So what you got in store for the radical ones  
Explain yourself, Mr. Bomfunk

Sky's the limit and you know that you keep on, just keep  
on pressing on  
Sky's the limit and you know that you keep on, just keep

on pressing on  
(keep on pressing on)  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
Sky's the limit and you know that you keep on, just keep  
on pressing on

To create something new, hypocrites must step back  
Cause when we come together it's atomic attack  
So let it be known, for each and everyone  
Sky's the limit and we've only just begun

Sky's the limit and you know that you keep on, just keep  
on pressing on  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
(keep on pressing on)  
Sky's the limit and you know that you keep on, just keep  
on pressing on  
(keep on pressing on)
