part 1

Be thankful just for what you've got  
If love's your guide, you've got a lot  
'Cause power here on earth goes by  
Forget your fear, no need to cry

part 2

Be thankful just for what you see  
We're part of nature's harmony  
Where everything is everything  
Who's losing now tomorrow may win

part 3

Be thankful just for who you are  
Inside your soul you'll find your star  
Take care of it and let it shine  
Leave all your pain and sorrow behind

part 4

Take care of it and let it shine  
Leave all your pain and sorrow behind  
Leave all your pain and sorrow behind  
Forget your fear, no need to cry
