Sarah:

just one last dance
just one last dance
we meet in the night in the spanish cafe i look in your
eyes
just to know what you saying it feels like im drowning in
salty
water
a few hours left till suns gonna rise and when
tomorrow will come its time to realize our love is
vanished
forever
how i wish to come with you how i wish we make it
through

Chorus:

just one last dance before we say good bye when you
say you'll
turn around around its like the first time
just one more chance hold me tight and keep me warm
cuz the night is getting cold and idk where i belong
just one last dance...

Boy:

what in the lights and the spanish guitar ill never forget
how romantic
they are but i know tomorrow i lose the one i love theres
no way to
come with you its the only thing to do

Chorus: (repeat until end)

just one last dance before we say good bye when you
swear you'll
turn around around its like the 3rd time
just one more chance hold me tight and keep me warm
cuz the night is getting cold and idk where i belong
just one last dance
