[Verse 1]

You're giving me an appetite
With what you're advertising
Atmosphere just seems so right
I feel my temperature rising
Imagining you're here with me
Fullfilling all my fantasies
Touching, loving, holding me
But it's only in my dreams

[Chorus]

These are the things
That my heart wants to say to you
These are the things
That my mouth just won't let me do
These are the things
That my mind wish would come true
But for now
I'll just keep imagining
But for now
I'll just keep imagining

[Verse 2]

My friends ask what's wrong with me
And why I don't just talk to you
It's because I'm so afraid
That you won't feel the way I do
Still I can't help thinking that
You and I could be so cool
But I just can't get the nerve
To say all these things to you

[Chorus]

These are the things
That my heart wants to say to you
These are the things
That my mouth just won't let me do
These are the things
That my mind wish would come true
But for now
I'll just keep imagining
But for now

I'll just keep imagining

[C-part]

I can't even front

I never felt this way before

Thoughts of me all over you

Has got me wanting more

Touching me in places hardly no one has ever seen

I don't wanna wait no more

Come bring your love to me [2x]

Still I can't help thinking that

You and I would be so cool

But I just can't get the nerve

To say all of these things to you

[Chorus]

These are the things

That my heart wants to say to you

These are the things

That my mouth just won't let me do

These are the things

That my mind wish would come true

But for now

I'll just keep imagining

But for now

I'll just keep imagining
