*[verse 1]*

Hey, don't care about the things you've done today  
Don't care about what other people say  
Just care about the night and everything  
You should do to make me feel right  
'Cause it's  
You, who's gonna get a lesson here from me  
There's no more messin' 'round, oh, can't you see  
You're gonna get an extra course in love  
Education for the nation, please!

*[bridge]*

Gotta learn biology  
The pleasure of the bird and the bees, baby, baby  
Checking out geography  
Position of the female body, oh, come on now

*[chorus]*

I bet your mama never told you this before  
I bet your papa never told you how to score  
I bet your sister never told you how to please  
So baby, baby let me show you what I need

I'm gonna show you how to treat a lady right

I'm gonna show you how to keep me satisfied  
You're gonna learn until the sun begins to shine  
I'm gonna teach you tonight

*[verse 2]*

Stay, you've got a little more to learn today  
So take a seat we're starting right away  
And let me see the homework that you've done  
Maybe you become my number one  
Come to  
Me, in front of class is where you've got to be  
The two of us in perfect harmony  
And when the bell is ringing for the break  
Let me show you how to graduate !

*[bridge]*

*[chorus]*

*[c-part]*

Gotta learn biology - just keep it going on

Checking out geography

Later on some history

You gotta tell me:

Did the Egyptians fall in love

What were the Romans thinking of
