part 1

Love and joy is coming
Children now come running
Bells are ringing all around the world
Christmas trees are glittering
Loud and clear my heart will sing
Glory, glory, Praise the lord
Tonight's the night

part 2

Day of peace are coming
When we look out for something
Bigger than our little hopes and fears
All on earth are equal
No one has the right to kill
Love will conquer hate at least
Tonight's the night

bridge

When do we learn everything
We give we will get in return
When do we see what I do to you
You'll be doin' to me
Please take your time
Try to face the facts open up your mind
And maybe then we can change the world,
Don't you understand

part 3

Love and joy is coming
Children now come running
Bells are ringing all around the world
Christmas trees are glittering
Loud and clear my heart will sing
Glory, glory, praise the lord
Tonight's the night
Love will conquer hate at last
Tonight's the night
