Get alive

Day in, day our
We pursue our happiness
An endless search
No final ease, no final rest
Deep in our hearts
We know it's sadly true
Our life is just
A way of woes, way of sorrow
And we stride on
From one stroke to the next
Don't think that was it
This is not the end

One harm hunts the next
Never to be set free
This is not the end
THis is only the start

Turn your eyes up to the sky
Strain your earsm await the worst
Turn your eyes to the sky
Focalize, watch him descend

Come, hear the word the doombringer speaks
Of tragedy, misery and a new void

Realize

Everyone of us
Underwent a lot of pangs
What makes the difference is
How you deal with it
Do you conceal the setbacks?
Can you dissociate?

Only death brings salvation
It's our burden to suffer
Never
Forget
Our precious
Wishes and dreams
Never
Forget
Our precious
Wishes and dreams

Come, hear the word the doombringer speaks
Of tragedy, misery and a new void
Come, hear the word the doombringer speaks
Of tragedy, misery and a new void
Come, hear the word the doombringer speaks
Of tragedy, misery and a new void
Come, hear the word the doombringer speaks
Of tragedy, misery and a new void.
