While We
Sleep in an unrested
Condition of hollowness
Our fiends continue their
Never-ending pest
Over and over
They raise from the dead
Enslaved by the system
They expose everything

Step by step they'll destroy everything
You have built up in your past
Step by step I'll destroy everything
You have built up in your past
Step by step they'll / I'll destroy everything
You have built up in your past

The world is full of despair
They split the masses in two
Everyone is responsible
For his own attitude
The ways we walk to reach the aim
Are stony, tough and grave
Keep your eyes open to hide
And avoid this false
Intrigues

Don't wake sleeping lions
Don't wake sleeping lions
Don't wake sleeping lions
Don't wake sleeping lions

Hide and avoid these intrigues
Because you will fall and fall again

Why do we fall?

To learn to pick ourselves up

The world is full of despair

They split the mass in two

Everyone is responsible

For his own attitude

The ways we walk to reach the aim

Are stony, tough and grave

Keep your eyes open to hide

And avoid this false

Intrigues

Step by step they'll destroy everything

You have built up in your fucking life.
