What happened to our love what happened to our trust
Why can't we rise above maybe we've hurt too much
When did we lose our faith was there a time to say
That fighting is not the way back to love

Maybe we didn't try maybe we couldn't see
What if we got some help would you open up to me
Now I know I won't give up and I know you won't give in
So how will we find the way back to love

You say we're different and that's how it's gonna be
You say it's hopeless living in this fantasy
But I'll be waiting for you this is where I wanna stay
Hoping for a way back to love

We never had a chance cause we never took the time
Everything went so fast suddenly you were mine

But what if we started over what if we're meant to be
Maybe we needed space to get back to love
We can get back to love

I will keep wishing I will keep dreaming about you
I want to fall asleep and wake up beside you
We've been here before and I know we can fight for a
way

You say we're different
