"Nightfall"

Well it's all right everything's fine
It's nightfall we're having some good times
Far from the land we're walking on the ocean
Where pleasures and drugs will blow our mind away
We've killed all the dogs so let the silence be
Enjoy the sunset like a new birth
It's a nice trip within your sex
Now I fell in rapture
We shall forget the ugly old man
Dust once he was dust he will be

Hear the sirens song calling calling
We shall follow their sexual attraction
Hear the sirens song calling calling
We shall follow their fatal attraction
Their sexual attraction
Their fatal attraction
Attraction
