Spoken

Mi

Softly

Roses without thorns

Verse 1

Hey

I don't expect you to

Write me a song back

Hey

I have to let you know

How I feel about this

And would people think I am crazy

And do you think that

Hey

I understand if you

Have a girlfriend

Hey

But this don't have to

Be perfect even if it's worth it

But I won't take you away from her

Even if I sometimes feel insecure

I am not so far away

Even if we are in a distance

Chorus

Roses with out thorns

Sometimes I feel insecure

They may reassure

Know that I am not going to lie

I understand some of how it is

Would you understand this

That there may be something to give

But you have to reply

Baby

I have been hurt before

By ones who didn't care
Baby
I have cried over and over
By boys who didn't know

Who I was the girl one of kind
But that's ok because now

But please feel me when I say
That I did have that kind of pain

Repeat chours
Roses with out thorns
Sometimes I feel insecure
They may reasure
Know that I am not going to lie
I understand some of how it is
Would you understand this
That there may be something to give
But you have to reply

Bridge
What is wrong with me
That I wanna believe
What I wanna believe
What is wrong with that
That I think there is a chance
A chance for someone with me
Could there be a
Over and over changes
Do I have to listen even tho
Youth is what I am
I may be young
But I have experencd
Something like a crush
