Verse 1

We used to be cool
But now I see what you do
It's not that I don't forgive you
Because I do but the truth

Is right there
And I can't believe
You are really like this
I guess now I see

Chours

It's all clear now
You are what you wanna be
It's all clear how
You're on the plazma screen
Tryina make me froun
But that ain't for me
I see who you are this time
I see through your lies

Verse 2

My eyes are not x ray for sure
And they never were
You've done this before
I seen you with that girl

It's right there
And I can't believe

Yeah boy you're not for me

Repeat chours

It's all clear now
You are what you wanna be
It's all clear how
You're on the plazma screen
Tryina make me froun
But that ain't for me
I see who you are this time
I see through your lies

Bridge

I must babe admit
You had me going for a while
But now about this
I realized and no more am I in denail

Repeat chours
It's all clear now
You are what you wanna be
It's all clear how
You're on the plazma screen
Tryina make me froun
But that ain't for me
I see who you are this time
I see through your lies
