"Slow"

Visit "[Slow](#)" on MotoLyrics.com

It's only you tonight
Let's stay out here for a thousand years
Like if we haven't learned to learn
To bring out in the light (out in the light)
I won't change if you won't change
So I need you to fall again
I won't leave if you won't leave
I can't make it on my own

I have a slow heart to speed up
I don't need your history
We won't give up with all our pasts
It's a slow heart to speed up
I don't want your history
We won't give up with all our pasts

What's in your heart tonight?
Would you let the darkness get inside?
How many broken dreams can show me light? (show
me the
Light)
You know I need, I'll need more time
So I want you to keep in mind
That I'll be gone if you are gone
I can't make it if you run

I have a slow heart to speed up

I don't need your history
We won't give up with all our pasts
It's a slow heart to speed up
I don't need your history
We won't give up with all our pasts

I will give it back to you, now

Slowly goes my heart
We should never be apart
Slowly goes my dreams
How can we forget it all?
I want to do it some more

I want to feel it again
If I end it with you
Oh such a beautiful end

Slowly goes my heart
We should never be apart
Slowly goes my dreams
How could we forget it all?
(Slowly goes my heart, Slowly goes my heart)
Slowly goes my heart (Slowly goes my heart)
Slowly goes my heart (Slowly goes my heart)
Slowly goes my heart (Slowly goes my heart)
Slowly goes my heart (Slowly goes my heart)
