Now it's time - it will come - from the sky  
The earth will transform  
What you fear - it is here - to erase  
Burn your eyes - paralyze - victimized

No will to live - give your flesh to radiation  
No living soul can survive the detonation  
Born from cold war it's the ultimate damnation  
Vile attack from the heart of civilization  
[Repeat the verse]

There was a reason to  
Do it all for you  
You are the one behind  
This global genocide

Dominate - this plague - life - eliminate!  
D - N - A - developed in - final - conflict  
Celebrate - this day - strike - annihilate

You are the enemy of life  
A deadly force ready to strike  
Nuclear power on the rise...

Now!
